

The background of the slide is a solid brown color. Overlaid on this is a large, rounded square containing a series of concentric, irregular shapes. These shapes are colored in shades of green and blue, with the innermost shape being a dark blue. The shapes are separated by thin white lines, creating a layered, organic effect.

100 random blobs

August the 20th, 2016 — Vasilis van Gemert

Every day my webserver generates a new book, filled with blobs of a random colour that turn into rectangles in ten steps. The blobs might have a border, and this border, if it exists, is either black or white. The ten steps follow a certain ratio. This ratio is one of the twelve so called excellent orthogons: The Quadrat, the Hemidiagon, the Trion, the Quadriagon, the Biauron, the Penton, the Diagon, the Bipenton, the Hemiolion, the Auron, the Hecton, and the Doppelquadrat.

Created for Vasilis van Gemert — and you — by his webserver.
